- Standard Screen Mode:** Displays the screen in a standard program window.
- Maximized Screen Mode:** Displays the screen in a standard program window.
- Full Screen Mode with Menu Bar:** Fills the screen with the Photoshop program window, including the program menu bar at the top.
- Full Screen Mode:** Fills the screen with the Photoshop program window, without the menu bar.

To Use Tool Options: Each tool's functions can be modified in the Tool options bar near the top of the program window. Click the tool and modify its properties, such as the size of a stroke, color, or additional tool modes.

Palettes (continued)

Navigator Palette

Info Palette

View specific information: size, location, and colors used in the object. The bottom area also describes what you can do with the selected tool.

Color Palette

Create a new color, choose a different color model in the image, or modify a color.

Swatches Palette

Styles Palette

History Palette

Undo or redo previous actions, or create a new image from a previous state or snapshot.

Actions Palette

Play a predefined action, create your own action, or edit or delete an action.

Layers Palette

Channels Palette

View individual color channels for the color model used in the image. The thumbnails appear in grayscale, but the image changes to display the selected channel(s).

Paths Palette

Each path in the image appears in this palette. Select a path to edit or view it in the image window.
