Del Mar College Invites Public to Open Meeting to Discuss Southside Location on March 24

Community can keep up with progress by visiting www.delmartomorrow.com

Del Mar College is developing nearly 100 acres for the next 100 years on the Southside of Corpus Christi to serve that growing population. The College invites the public to help create the vision for the proposed Southside location at Yorktown Blvd. and Rodd Field Road during an open meeting scheduled this Thursday, March 24.

Participants will see preliminary plans for the new location and be invited to provide input.

The meeting begins at 6:30 p.m. at the DMC Center for Economic Development located at 3209 S. Staples (across from Ray High School at the corner of Staples and Kostoryz). RSVPs are not required. More information is available by calling 361-698-1247.
